

Severe Adverse Effects

- thrombosis / Delayed / 3.0-19.9
- thromboembolism / Delayed / 3.0-19.9
- pulmonary embolism / Delayed / 3.0-19.9
- thrombotic thrombocytopenic purpura (TTP) / Delayed / 3.0-19.9
- hemolytic-uremic syndrome / Delayed / 3.0-19.9
- post-transplant lymphoproliferative disorder (PTLD) / Delayed / 1.0-10.0
- pancreatitis / Delayed / 0-3.0
- pleural effusion / Delayed / Incidence not known
- cardiac tamponade / Delayed / Incidence not known
- pericardial effusion / Delayed / Incidence not known
- anaphylactic shock / Rapid / Incidence not known
- exfoliative dermatitis / Delayed / Incidence not known
- vasculitis / Delayed / Incidence not known
- angioedema / Rapid / Incidence not known
- anaphylactoid reactions / Rapid / Incidence not known
- proteinuria / Delayed / Incidence not known
- nephrotic syndrome / Delayed / Incidence not known
- pancytopenia / Delayed / Incidence not known
- leukoencephalopathy / Delayed / Incidence not known
- bronchiolitis obliterans / Delayed / Incidence not known
- pulmonary hypertension / Delayed / Incidence not known
- pulmonary fibrosis / Delayed / Incidence not known
- wound dehiscence / Delayed / Incidence not known
- lymphoma / Delayed / Incidence not known
- new primary malignancy / Delayed / Incidence not known
- hepatic necrosis / Delayed / Incidence not known ^[1]
