

# Severe Adverse Effects

- pancytopenia / Delayed / 1.0-3.0
- anaphylactoid reactions / Rapid / Incidence not known
- pancreatitis / Delayed / Incidence not known
- hematemesis / Delayed / Incidence not known
- peptic ulcer / Delayed / Incidence not known
- agranulocytosis / Delayed / Incidence not known
- aplastic anemia / Delayed / Incidence not known
- hepatotoxicity / Delayed / Incidence not known
- leukoencephalopathy / Delayed / Incidence not known
- arachnoiditis / Early / Incidence not known
- coma / Early / Incidence not known
- seizures / Delayed / Incidence not known
- pulmonary toxicity / Early / Incidence not known
- azotemia / Delayed / Incidence not known
- renal failure (unspecified) / Delayed / Incidence not known
- vasculitis / Delayed / Incidence not known
- Stevens-Johnson syndrome / Delayed / Incidence not known
- exfoliative dermatitis / Delayed / Incidence not known
- tumor lysis syndrome (TLS) / Delayed / Incidence not known
- retinal thrombosis / Delayed / Incidence not known
- bradycardia / Rapid / Incidence not known
- pericarditis / Delayed / Incidence not known
- ventricular tachycardia / Early / Incidence not known
- bone fractures / Delayed / Incidence not known
- optic atrophy / Delayed / Incidence not known
- teratogenesis / Delayed / Incidence not known <sup>[1]</sup>
